

MicroEdge SULFUR

8-0-0-10S

GUARANTEED ANALYSIS:

Nitrogen (N).....8%

8% Combined Nitrogen

Sulfur (S).....10%

10% Combined Sulfur

Derived from: Ammonium Sulfate, Kelp Extract (*Ecklonia maxima*)

ALSO CONTAINS NON-PLANT FOOD INGREDIENTS

Soil Amending Ingredient:

Active Ingredient:

Kelp (*Ecklonia maxima*, *biologically extracted*) extract.....75%

Total Other Ingredients (Inert as Non-Plant Food Ingredient)..25%

KEEP OUT OF REACH OF CHILDREN

WARNING

PRECAUTIONARY STATEMENTS

May be harmful if swallowed, inhaled or absorbed through the skin. May cause eye and skin irritation. Avoid contact with open cuts or sores. Avoid breathing vapors. Use with adequate ventilation. Wear personal protective equipment (eye protection and gloves) to avoid contact with eyes, skin, and clothing. Wash hands thoroughly after handling and using this product. In case of contact, flush with water. Get medical attention for eyes. Product users should avoid prolonged or repeated skin contact by wearing impervious gloves, long sleeve shirt, long pants, socks and rubber boots, and splash-proof safety goggles for eye protection.

FIRST AID

If inhaled: Move victim to fresh air. If not breathing give artificial respiration. If breathing is difficult, give oxygen and seek medical attention.

If on skin: Flush affected areas with water. Remove contaminated clothing and launder before reuse.

If in the eyes: Immediately flush with water for at least 20 minutes. Remove contact lenses, if present, and continue rinsing eyes. Seek medical attention if irritation persists.

If swallowed: Drink plenty water if conscious. Call a poison control center or doctor immediately for advice on inducing vomiting. Do not give anything by mouth to an unconscious person.

GENERAL INFORMATION

MicroEdge Sulfur is a foliar fertilizer made up of a combination of nitrogen and sulfur to drive plant growth development and play a crucial role in crop production.

MicroEdge Sulfur also contains CropPWR (Kelp Extracts) to help mitigate abiotic stress including drought, cold and heat stress.

MicroEdge Sulfur is designed for use in all crops as a foliar application and is intended to be used as a supplement to a standard fertility program.

DIRECTIONS FOR USE

SHAKE WELL before using. MicroEdge Sulfur may be applied using any conventional spraying equipment, irrigation lines or ditches, or overhead sprinklers. Use as much water as possible for maximum coverage and penetration. Do not use with calcium salts. To co-apply with agrochemicals, and/or nutrient programs, consult with an Acre Edge representative on compatibility with other spray materials. Apply as directed below. Because formulations of agrochemicals vary, a small test area should be treated prior to large-scale mixing to determine that no phytotoxicity or undesirable effects occur.

Crop	Application Timing	Rate
Corn	Foliar, post-emerge	1-2 quarts/acre
Soybeans	Foliar, post-emerge	1-2 quarts/acre

STORAGE AND DISPOSAL

Store in original container. Keep container tightly sealed when not in use. Do not store near heat or open flame. Do not reuse container. Do not contaminate water, food or feed by storage, disposal or cleaning of equipment. Store at temperatures above 32°F (0°C). Protect from freezing. Triple rinse (or equivalent) prior to disposal. Add rinsate to tank. Offer container for recycling or disposal in accordance with Federal, State and local regulations. If burned, stay out of smoke.
